Quarried in the Western Mediterranean, this honed limestone has a rich sandy colour that provides a delicate warm feel. Its background composition is magnified with unique small fossils and random sedimentary veining. A stone for those seeking a homely, cosy fireplace, Corinthian Stone is also available made to measure.

CORINTHIAN STONE

Sourced from the Eastern Mediterranean, our Aegean Limestone mantels are beautifully unique in character. Each mantel has its own individual fossil formation, veining and colour so no two are the same and is handcrafted into a variety of contemporary and traditional designs. Aegean Limestone is also available made to measure.

AEGEAN LIMESTONE

Formed over 50 million years ago and quarried in Portugal. The characteristic darker veins, intermingled with fossils of plants and animal life all add up to the beauty of this natural stone. Blooms and whips of fossilised leaves are not considered defects but part of the experience. Portuguese Limestone is also available made to measure.

PORTUGUESE LIMESTONE

Quarried in the Italian city of Carrara, this stunning material has been used in the building of many of Rome's most remarkable buildings including the Pantheon. Every one of our Carrara Marble mantels has its own distinctive appearance with beautiful, fine grey and blue veining.

Please note our made to measure service is not available on this marble.

CARRARA MARBLE

Liberty White Marble is famously known for forming the pedestal of the Statue of Liberty. It's a classical stone that when hand carved, produces a selection of stunning modern and time-honoured designs. Our Liberty White mantels are snow white and consistent in colour, yet soft grey speckled veins can be present.

Please note our made to measure service is not available on this marble.

LIBERTY WHITE MARBLE

Our Timber mantels are available in two elegant styles, they're available made to measure in any size and any colour, enabling you to have complete control over the look and feel of your fireplace. Both of our classic Timber mantels are handcrafted in Britain and take on a whole new personality when tailored to your exact requirements.

CREATE YOUR OWN FIREPLACE

The Capital Fireplace Studio allows you to create your very own fireplace design using our online custom software. Because there are so many different components involved in the making of a fireplace, it can be difficult to envisage it in its entirety. That's why we've introduced our **online Fireplace Studio**, giving you the tools to design and more importantly, visualise your fireplace before reaching a decision you're 100% happy with. We'll continue to add new products to the studio, so be sure to keep an eye out, we also recommend you print a copy and take it to your nearest Capital retailer for them to price for you.

It is free and easy to use, so start creating your own fireplace today by visiting our website at www.capitalfireplaces.co.uk

MADE TO MEASURE SERVICE

Capital Fireplaces manufacturing and fabrication facilities are strategically located to utilise both the most advanced manufacturing technology available and the highest quality skills. Established long term relationships with quarries and foundries with highly efficient fabricators and stone masons, provide the backbone for the stringent quality and manufacturing standards we achieve with our collection.

We strive to offer our customers a great deal of flexibility in terms of the size of their chosen fireplace design. That's why we have implemented a Made to Measure service for a variety of our mantels in the following materials; Corinthian Stone, Aegean Limestone, Portuguese Limestone and Timber.

No matter how small or large your chimney breast, whether you'd like to change the overall size of your fireplace, make the shelf wider or reduce the rebate size, we can deliver a completely tailored service. Simply look out for the Made to Measure logo on our mantels throughout this brochure.

Greencast & Provident

Our Provident and Greencast ranges have been designed to deliver higher efficient gas and electric fires for more traditional and ornate cast iron fireplaces. We have sought from the design stage to combine the two critical components, the fire and the cast iron mantel, in unison to deliver an aesthetically pleasing integrated appliance.

HE Wandsworth Greencast Highlight

The Wandsworth HE Greencast has been designed to deliver higher efficient gas and electric fires for more traditional and ornate cast iron fireplaces. We have sought from the design stage to combine the two critical components, the fire and the cast iron mantel, in unison to deliver an aesthetically pleasing integrated appliance.

The HE Wandsworth is paired here with the full depth open fronted convector fire and Hersham 54” Aegean Limestone mantel.

See below the fires suitable to be fitted with the Wandsworth HE;

Fire	Input	Output	Chamber Depth	Ceramic Coals	Energy Rating
Slimline Open Fronted Convector Class 2	6.5kW	2.6kW	90	✓	Decorative only**
Full Depth Open Fronted Convector	6.9kW	3.4kW	230	✓	F
Full Depth Glass Fronted Convector	5.0kW	3.3kW	230	✓	E

*Minimum wall depth 230mm / Max wall depth 560mm.
Optional extended flue max wall depth 930mm

Provident Black

The Provident

The Capital Provident can help you create a fireplace that's beautifully modest with a higher efficiency, making it a fine centrepiece for any modern or traditional mantel. Available in a Black or Highlighted finish, the Provident consists of a back panel and fireframe.

By integrating both these components, we are able to create a highly efficient gas or electric fire. Closing off the unit and adding a canopy to the fireframe means we are able to increase the efficiency of the fires and ensure that the heat output is going into the room and not up the chimney.

Fire Suitable	Input	Output	Fire Depth	Coal Effect	Rating
Ascella	5kW	3.85kW	235	N/A	C
Omega*	6.9kW	4kW	235	✓	F
Lectro	2kW	2kW	75	✓	N/A
Phantasy	1.8kW	1.8kW	75	✓	N/A

* Log effect upgrade available

CAST IRON DIMENSIONS

All products (except chrome finish) are suitable for burning solid fuel, however polished and highlighted products may tarnish. Only burn small fires to start with in order to temper the cast iron.

Before committing to a fireplace, please discuss your particular installation with your retailer who will provide expert advice and carry out a survey. All dimensions are provided as a guide only and are subject to a tolerance of ± 12mm. It is normal for tiles to craze over time.

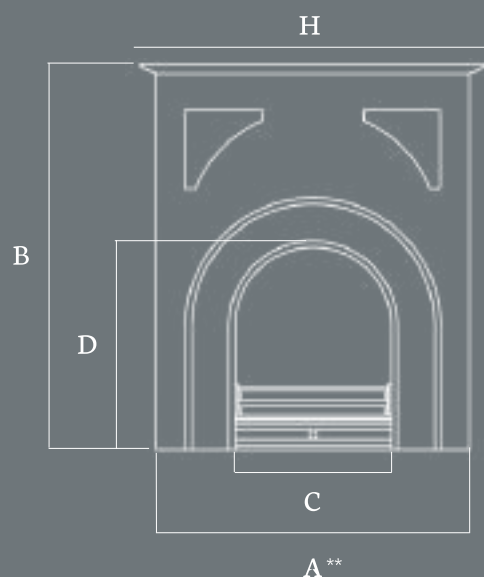

#Supplied with deeper back as standard

*Available with deeper back (as optional extra) for larger burning area

**415w x 560h opening (when fitted with a backplate)

Recent changes in legislation have been made in an attempt to reduce emissions in the UK. Whilst the actual heat output has not changed from previous years, selected inset gas fires shown in this brochure are no longer suitable for primary heating purposes and should be used in conjunction with the primary heating system as decorative only with occasional use.

Due to the nature of the materials and appliances used within this brochure, actual finishes and colours may vary slightly. Flames shown within the fires may also vary depending on gas type, fuel quality and the performance of the flue or chimney.
